Hi, I'm Jess

For over two decades I have served churches, schools, children and families, helping create spaces where children can develop Bible Literacy, discover their God-given identity and experience moments of Holy Spirit encounter!

As an experienced children and families worker I know the challenges of recruiting, resourcing and training teams. My Masters in Applied Theology specialising in Children, Families and Community Work, together with my experience working with a range of additional needs in church contexts, has given me a deeper understanding of the many opportunities we have to be hubs of provision and love within our communities. I am passionate about helping churches raise a generation of Spirit-filled, Bible-confident children.

Through training, speaking, curriculum development and bespoke resource creation, I partner with churches across the UK to equip leaders with practical tools, fresh vision and deeper confidence.

Because children's ministry isn't just about filling a rota. It's about forming disciples for a life-long relationship with God!
